

» Know where they are . . . wherever they are!

TracerTrak™ - AssetTrak

- » **Locate** and **map** your assets with Australia-wide coverage*
- » **Never lose** track of your valuable property
- » **Secure** your asset anywhere in Australia and it's surrounding waters*
- » **Be alerted** via SMS and email when unauthorised activity occurs
- » **Find** which assets are closest to where you need them
- » Ensure efficient use and **maximum productivity** of your assets
- » **Control** unauthorised use of your valuable equipment

AssetTrak Features

- » One location update at the start of each work day
- » One location update at the finish of each work day
- » Know where your assets are, increase the productivity of your fleet
- » Set geofences (authorised inclusion and exclusion zones) and receive SMS and email alerts if they move outside that area
- » Proximity searches so you know which asset is closest to your locations

(* Reception limitations apply, excludes some Australian external territories.
