The screenshot shows the TracerTrak MyTrak web interface. At the top, it says 'TracerTrak Know where they are, wherever they are.' and 'Powered by Tenzeng'. The main area is a map of Australia with a blue route marked. On the left, there's a sidebar with a list of assets under categories like 'New', 'Queensland', 'Sales', and 'Victoria'. Below the map, there's a table with columns for 'Asset', 'Date/Time', and 'Location (WGS84 Coordinates)'. The table lists several 'Eastern Truck' entries with their respective dates and locations in Queensland. At the bottom, there's a log showing user login activity.

Asset	Date/Time	Location (WGS84 Coordinates)
